

PEARLS OF BEAUTY

ALDO COPPOLA
PEARLS OF BEAUTY
WITH AMINOACIDS

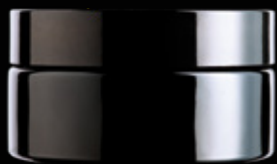

Aldo Coppola presents a new extraordinary beauty treatment for hair, contained in a pearl.

Pearls of Beauty are suitable on all hair types, they protect and nourish the hair, making it shiny and soft. They are rich in amino acids similar to hair Keratin, improve hydration and protect from the heat of the hairdryer, from harmful UV rays and environmental pollution.

A simple finishing touch makes the hair soft, easy to comb and blow-dry with anti-frizz effect. Application is simple and fast: you warm in your hands the content of one pearl and rub well into lengths and ends before styling. Do not rinse. You can also apply a small quantity on dry hair for a special touch of intense shine and total protection.

Aldo Coppola Pearls of Beauty, your new daily special for the beauty of hair.
